CAREER OBJECTIVE

Enthusiastic and driven BS-AI student with a strong interest in Full Stack Development, currently learning the **MERN stack**. Eager to apply my project experience and coursework in a software development internship. Passionate about learning new technologies and contributing to real-world, impactful projects.

PROJECTS

NewsMonkey

Technologies: React, NewsAPI

- **Description:** Made a news app using **React (Class-Based)** and **NewsAPI** to show top news in different categories. Added features like page navigation, infinite scroll, and a responsive design with Bootstrap. Improved skills in using APIs, React components, and building user-friendly web pages.

TextUtils

Technologies: React

- **Desc*ri*ption:** Built a simple text tool app using **React** for learning purposes. It lets users do things like change text to uppercase/lowercase, remove extra spaces, and count words or letters. Used **Bootstrap** for styling and **React hooks** to manage the app's behavior. Helped me improve my front-end and React skills.

Library Management System

Technologies: ASP.NET Web Forms, MySQL

- **Descripti*on*:** Built a Library Management System using **ASP.NET Web Forms** for server-side functionality and **MySQL** for database management, strengthening skills in data-driven web application development, CRUD operations, and user interface integration.

SnakeGame

Technologies: JavaScript, HTML, CSS

- **Description:** Created a classic snake game using **HTML CSS** and **JavaScript**, learning fundamental concepts of game loops, collision detection, and **DOM manipulation**.

NetflixClone

Technologies: HTML, CSS

- **Description:** Developed a Netflix-inspired website layout, enhancing front-end design skills with **HTML** for interactivity and **CSS** for styling.

SKILLS

ReactJS Node.js ASP.NET

ExpressJS JavaScript C#

MongoDB MySQL HTML CSS

OOP MsExcel

EDUCATION QUALIFICATION

Bachelors in Artificial Intelligence

Karachi Institute of Economics and Technology

📅 02/2024 - 02/2028   📍 Karachi

Intermediate In Computer Science

PECHS Foundation College

📅 08/2022 - 05/2024   📍 Karachi, Pakistan

Matriculation in Science

The Educators School

📅 05/2021 - 05/2022   📍 Karachi, Pakistan

TRAINING / COURSES

Professional Software Development Course 2.0

Baitus Salam Tech Park

Applied Generative AI Engineering

Governor House Sindh
